AI TRIAGE SUPPORT SYSTEM – OVERVIEW

HCI Setting A – Mercer ED Triage Desk

Appearance

Is the robot more machine or lifelike? Is it human-shaped, animal-shaped, or abstract?

TRADE-OFF:

Robots that appear more human and lifelike are expected to be more sophisticated in features.

Size

How big is the robot?

Character of movement

What is the robot's movement like?

Voice & sounds

Does the voice have a gender or an age? What are pitch, speed and prosody like? Is the voice always the same?
Does the robot make sounds: music, "beep"s, animal noises?
When are these sounds heard?

- **No conversational voice.**
- **Visual notifications preferred over audio alerts.**
- **Audio alerts reserved for high-priority clinical events only.**
- **Notification sounds should be brief and distinguishable.**
- **Patients receive written guidance rather than spoken instructions.**

Mobility

Does the robot move across space? Does it move in place?

- **No physical movement.**
- **Accessible from hospital desktop workstations.**
- **Patient portal accessible on personal mobile devices through QR code.**
- **Future deployment across multiple hospital departments without changing interface design.**

Visual cues

Does the robot have expressions, lights, a screen or other visual elements?

- **Colour-coded ESI levels.**
- **High-contrast interface.**
- **Large readable typography.**
- **Icons paired with text labels.**
- **Confidence score displayed visually.**
- **Key contributing clinical factors shown beside AI recommendation.**
- **Alerts clearly distinguish urgent from routine notifications.**
- **Consistent layout across nurse and patient interfaces.**

Touch & smell sensations

Is the robot soft or rough, warm or cold?

How does the robot smell?

Touch and smell are especially important in close interactions.

- **Standard keyboard, mouse and touchscreen interaction.**
- **No tactile or haptic feedback required.**
- **No smell or environmental sensory interaction.**
- **Designed for comfortable use during prolonged clinical shifts.**
